

# 16<sup>th</sup> TAG-RAG meeting

Bilbao, March 13<sup>th</sup> 2019

Co-financed by the European Union

Connecting Europe Facility

Portugal . España . France . Deutschland

1ST SESSION

- I. WELCOME AND UPDATE/NEWS ON ATLANTIC CORRIDOR.
- II. RESERVE CAPACITY FOR 2019 AND THE OFFER OF PRE-ARRANGED PATHS 2020.
- III. KEY PERFORMANCE INDICATORS 2018.
- IV. SATISFACTION SURVEY ON ATLANTIC CORRIDOR 2018.
- V. COMMENTS ON ATLANTIC CORRIDOR INTERNATIONAL CONTINGENCY MANAGEMENT PLAN.
- VI. PRESENTATION OF TRAIN PERFORMANCE MANAGEMENT WORKING GROUP ACTIVITY, INCLUDING TIS AND OBI TOOLS.

2<sup>ND</sup> SESSION

- I. RAIL ACTIVITY AT BILBAO PORT.
- II. RAIL FREIGHT CORRIDOR OVERVIEW AND OSS GENERAL FUNCTIONALITY.
- III. JÚNDIZ TERMINAL NEW PROJECT AND UIC TRACK GAUGE FRAMEWORK.
- IV. VISIT TO BILBAO PORT.
- V. LUNCH.

1ST SESSION

- I. WELCOME AND UPDATE/NEWS ON ATLANTIC CORRIDOR
- II. RESERVE CAPACITY FOR 2019 AND THE OFFER OF PRE-ARRANGED PATHS 2020.
- III. KEY PERFORMANCE INDICATORS 2018.
- IV. SATISFACTION SURVEY ON ATLANTIC CORRIDOR 2018.
- V. COMMENTS ON ATLANTIC CORRIDOR INTERNATIONAL CONTINGENCY MANAGEMENT PLAN.
- VI. PRESENTATION OF TRAIN PERFORMANCE MANAGEMENT WORKING GROUP ACTIVITY, INCLUDING TIS AND OBI TOOLS.

2ND SESSION

- I. RAIL ACTIVITY AT BILBAO PORT.
- II. RAIL FREIGHT CORRIDOR OVERVIEW AND OSS GENERAL FUNCTIONALITY.
- III. JUNDIZ TERMINAL NEW PROJECT AND UIC TRACK GAUGE FRAMEWORK.
- IV. VISIT TO BILBAO PORT.
- V. LUNCH.

## NEWS

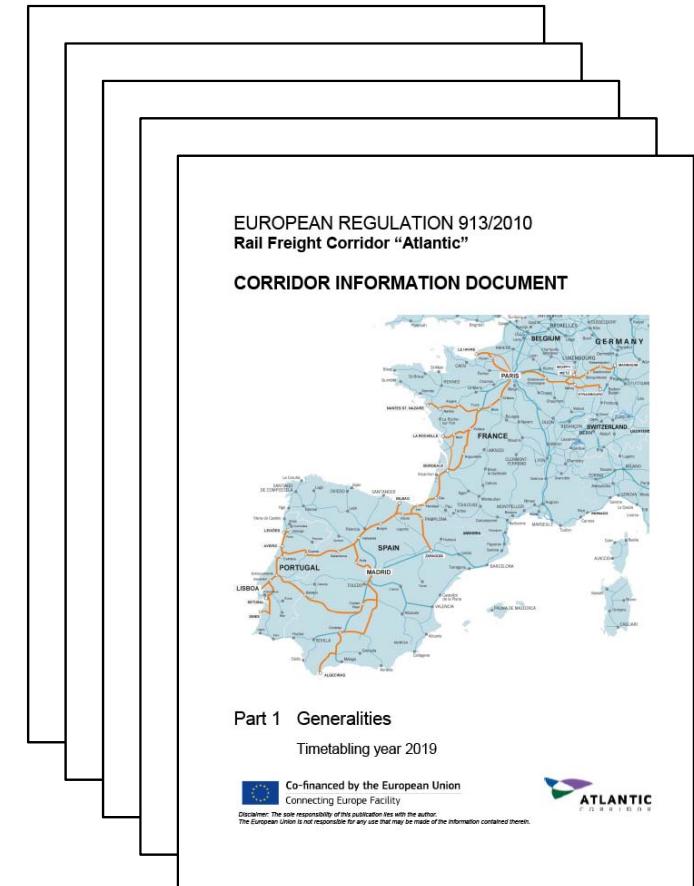

- ❑ Publication of the Corridor Information Document – CID 2020
- ❑ In progress the work on harmonization and simplification of CID Book 3 – Service facilities and Book 5 – Implementation Plan, as well as its attached Glossary to simplify the consultation by the TAG-RAGs members using several RFCs
- ❑ New studies / actions on progress for 2019
- ❑ TCM further development expected at short term
- ❑ Atlantic TTR Pilot implementation for TT2021
- ❑ International South Corridor In Portugal – LESTE RAIL LINE
- ❑ ERTMS deployment on the cross border section Woippy-Mannheim

## PUBLICATION OF THE CORRIDOR INFORMATION DOCUMENT 2020

- The most relevant change is an updated version of the **Framework for Capacity Allocation (FCA)** between several RFCs.  
**A single CID book 1** has been implemented by RFC1, 2, 4 & 8.

In order to simplify the consultation of the CID by the TAG-RAGs members using several RFCs

- The RNE Work Group is presently working on the harmonization and simplification of Book 3 – Service facilities and structure harmonization of Book 5 – Implementation Plan for TT2021

## STUDIES / ACTIONS ON PROGRESS FOR 2019

### Intermodal rail freight gauge classification between Lisbon, Madrid, Paris and Mannheim

In progress, gauge measurement planned in the 2<sup>nd</sup> trimester 2019, final results at the end of 2019.

### Atlantic Corridor freight transport observatory

In progress, draft report 2018 under analysis, final report expected for summer 2019.

### English language and Communication at national OCC level (IP, SNCF Réseau and DB Netz)

1<sup>st</sup> step of English training will be delivered in 2019 for the people working in each national OCC

### Transport Market Study update

Since 2015, no update of the TMS has been implemented on the Atlantic Corridor; a new contract will be signed in the 2<sup>nd</sup> trimester 2019, some extensions will be tested in Spain and France, expected results for the middle of 2020.

### Language pilot at the French/German border

With RNE support, SNCF Réseau and DB Netz AG are working on a pilot in order to improve the communication in French between IM and RU at Forbach station.

16<sup>th</sup> TAG RAG meeting  
Bilbao, March 13<sup>th</sup> 2019

## TCM FURTHER DEVELOPMENT EXPECTED AT SHORT TERM

Missing operational information in TIS like real train length, loco characteristics, dangerous goods information is expected via TAF TSI implementation.

PSA funding has been dedicated to the Atlantic Corridor in order to implement these new functionalities between national system of each IM/RU and TIS until the end of 2020.

RNE and IP will implement IT interfaces in order to provide automatically these additional information of Portuguese trains in TIS in 2019.

16<sup>th</sup> TAG RAG meeting  
Bilbao, March 13<sup>th</sup> 2019

## IMPLEMENTATION OF TTR PILOT FOR TT2021

- Involvement of all stakeholders needed in the TTR Project : last meeting held on the 25<sup>th</sup>.01.2019 at DB Netz AG office in Mannheim.
- As no agreement for capacity model 2020 has been reached in France at the moment, no rolling planning offer will be published at X-4 between Mannheim and Irun on the Atlantic Corridor.
- Only traditional flex PaPs have been offered for the annual TT2020 and published at X-11.
- Atlantic TTR Pilot is delayed for TT2021 under the conditions of project manager nomination at each IM capacity allocation dpt level & IMs+RUs High level steering committee implementation.
- Capacity bands definition for TT2021 is on progress at SNCF Réseau level (one / day / direction, including 4 to 5 paths per direction); additional flex PaP offer will be provided by SNCF Réseau

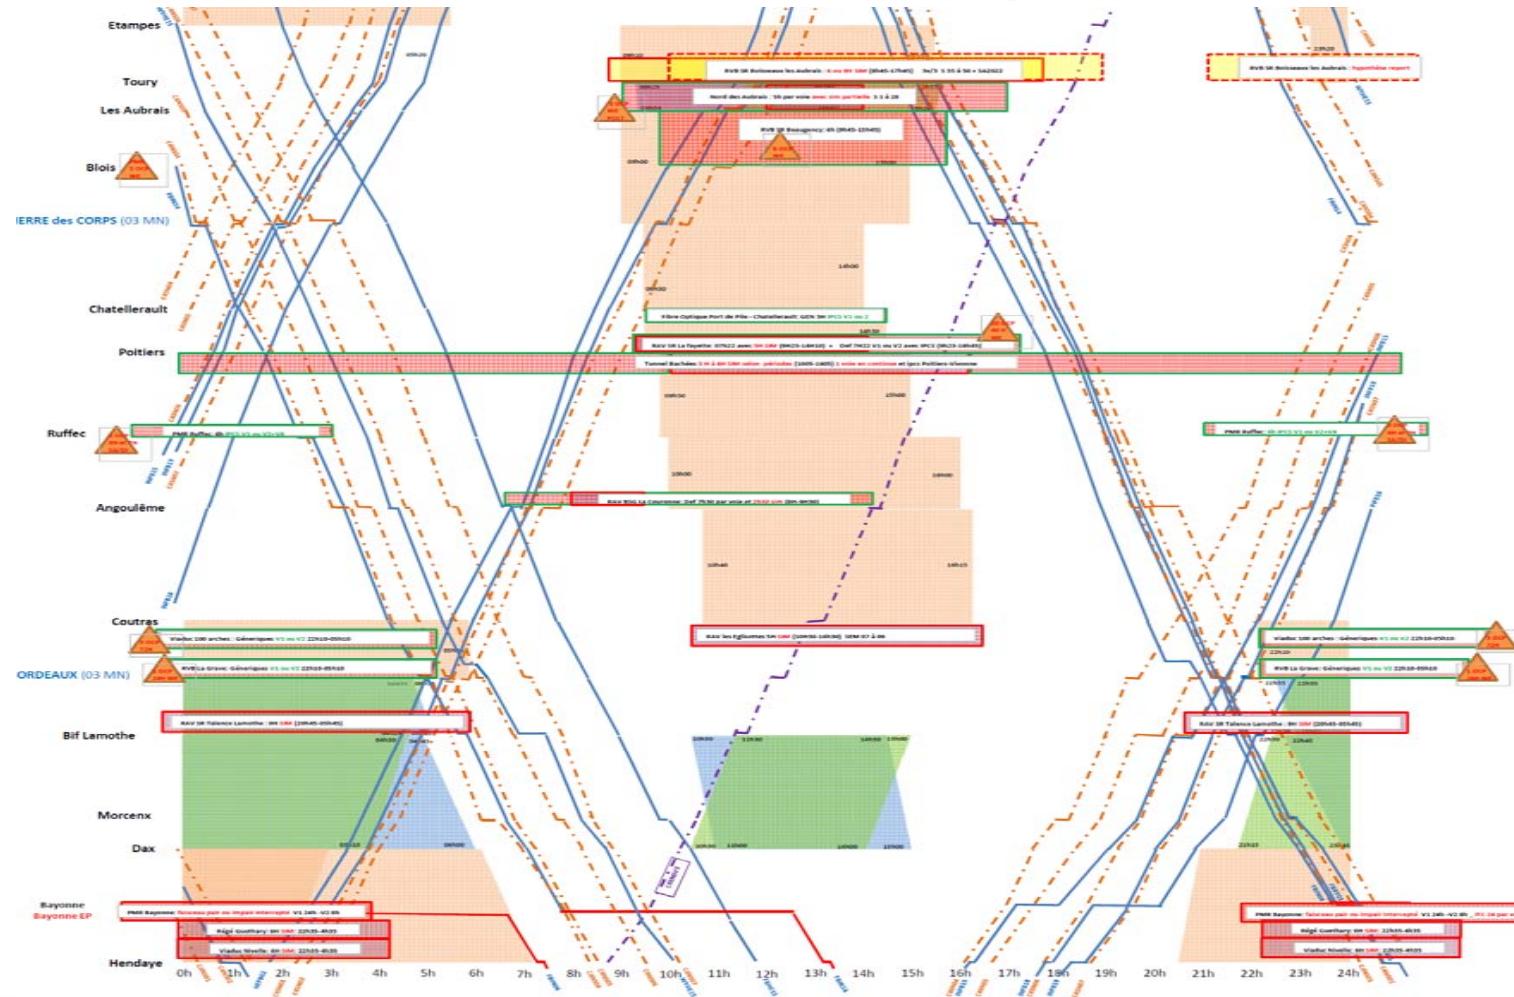

## IMPLEMENTATION OF TTR PILOT FOR TT2021

Only one capacity band will be available in 2021 for crossing France between Forbach and Irun (both direction)

**ATLANTIC**  
CORRIDOR

Sines · Setúbal · **Lisbon** · Aveiro · Leixões · Algeciras · **Madrid** · Bilbao · Zaragoza  
Bordeaux · La Rochelle · Nantes · **Paris** · Le Havre · Strasbourg · **Mannheim**

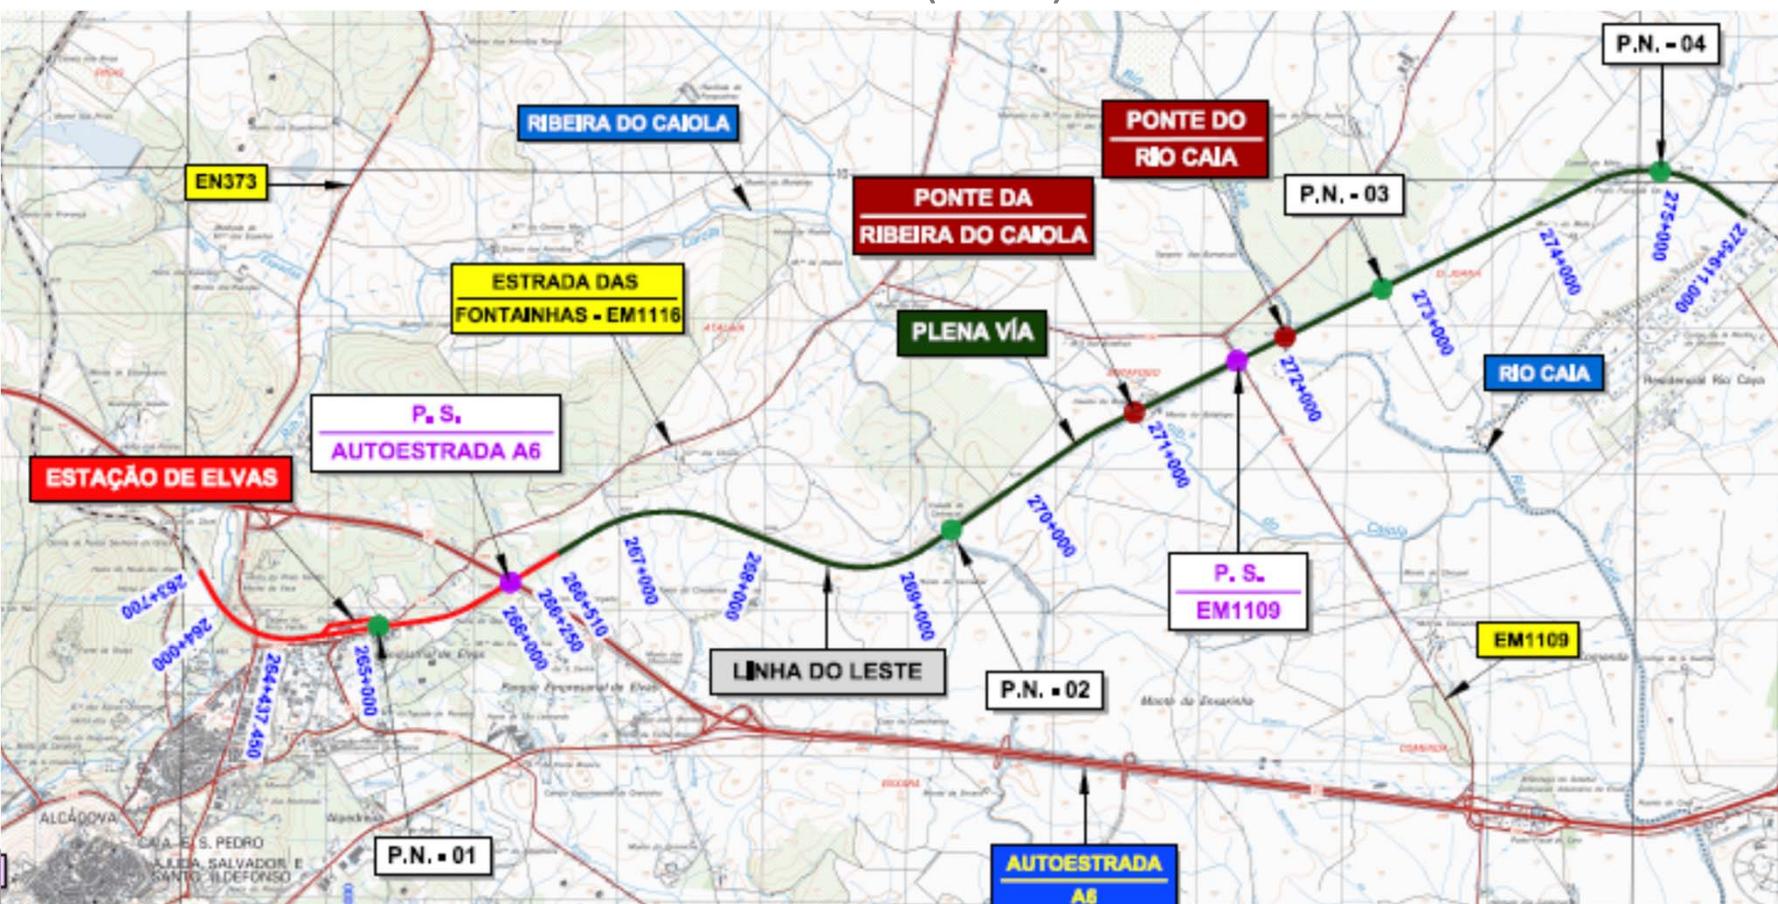

## IMPLEMENTATION OF TTR PILOT FOR TT2021

Only one capacity band will be available in 2021  
for crossing France  
between Forbach and  
Irun (both direction)

## INTERNACIONAL SOUTH CORRIDOR IN PORTUGAL – LESTE RAIL LINE (1/2)

### MODERNISATION OF THE ELVAS – FRONTIER (SPAIN) STRETCH

**Investment:**  
**27 M€**

The beginning of  
the new South  
international  
Corridor

Foreseeing a new  
line between Évora  
& Elvas / Fronteira.

## INTERNACIONAL SOUTH CORRIDOR IN PORTUGAL – LESTE RAIL LINE (2/2)

### EXISTING vs NEW

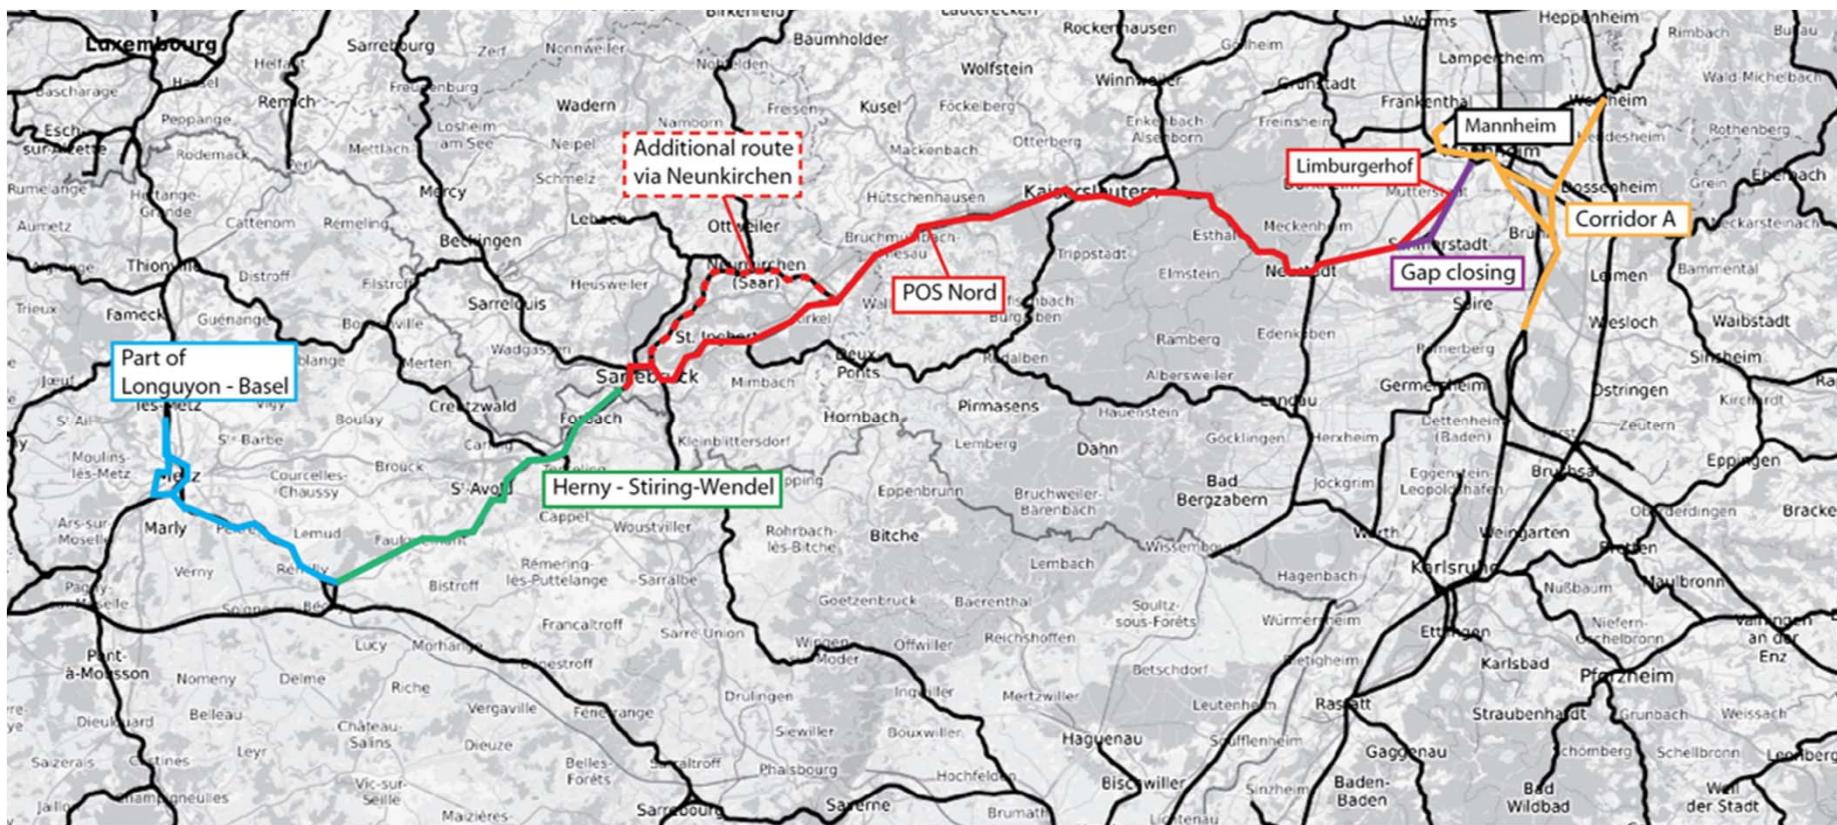

#### Current line Characteristics

- Elvas – Frontier (Spain) – 12 km
- Wood sleepers, 45 kg/m rail , short rail, rigid fastening
- Passengers and freight Station (Elvas)
- 4 Level Crossings
- 2 Bridges - Caiola (34 meters, single span) and Caia (81 meters, 3 spans);
- Current top speed – 40 km/h.

#### Scope of works:

- Complete renovation of the track superstructure
- Adaptation of the Elvas station layout to allow 750 m trains
- Eliminate existing level crossings
- Replacement of decks and reinforcement of piers in bridges
- Electrification at 25kv-50Hz and Electronic Signalling and Telecommunications (ETCS Level 2 and GSM-R)
- Future top speed of 120 km/h

## ERTMS DEPLOYMENT ON THE CROSS BORDER SECTION WOIPPY-MANNHEIM (250 KM)

16th TAG RAG meeting  
 Bilbao, March 13<sup>th</sup> 2019

## ERTMS DEPLOYMENT ON THE CROSS BORDER SECTION WOIPPY-MANNHEIM (250 KM)

- Based on the technical information provided by SNCF Réseau and DB Netz AG, a feasibility study has been achieved in 2018 for the ERTMS deployment at short term.
- **Issue 1:** For strategic reasons, SNCF Réseau decided recently to implement only ERTMS level 2 on the section Herny-Forbach-DE border at medium term, instead of ERTMS level 1 on progress on the section Longuyon – Herny – Bâle (RFC North Sea Mediterranean) at short term.  
→ No ERTMS deployment is forecasted at short term on the French side between Herny and Forbach
- **Issue 2:** The ERTMS business case for freight trains will only work if the main line for rail freight trains via Neunkirchen will be equipped with ERTMS. This is currently not foreseen in the national deployment plan of Germany.

1ST SESSION

- I. WELCOME AND UPDATE/NEWS ON ATLANTIC CORRIDOR.
- II. RESERVE CAPACITY FOR 2019 AND THE OFFER OF PRE-ARRANGED PATHS 2020.**
- III. KEY PERFORMANCE INDICATORS 2018.
- IV. SATISFACTION SURVEY ON ATLANTIC CORRIDOR 2018.
- V. COMMENTS ON ATLANTIC CORRIDOR INTERNATIONAL CONTINGENCY MANAGEMENT PLAN.
- VI. PRESENTATION OF TRAIN PERFORMANCE MANAGEMENT WORKING GROUP ACTIVITY, INCLUDING TIS AND OBI TOOLS.

2<sup>ND</sup> SESSION

- I. RAIL ACTIVITY AT BILBAO PORT.
- II. RAIL FREIGHT CORRIDOR OVERVIEW AND OSS GENERAL FUNCTIONALITY.
- III. JÚNDIZ TERMINAL NEW PROJECT AND UIC TRACK GAUGE FRAMEWORK.
- IV. VISIT TO BILBAO PORT.
- V. LUNCH.

1ST SESSION

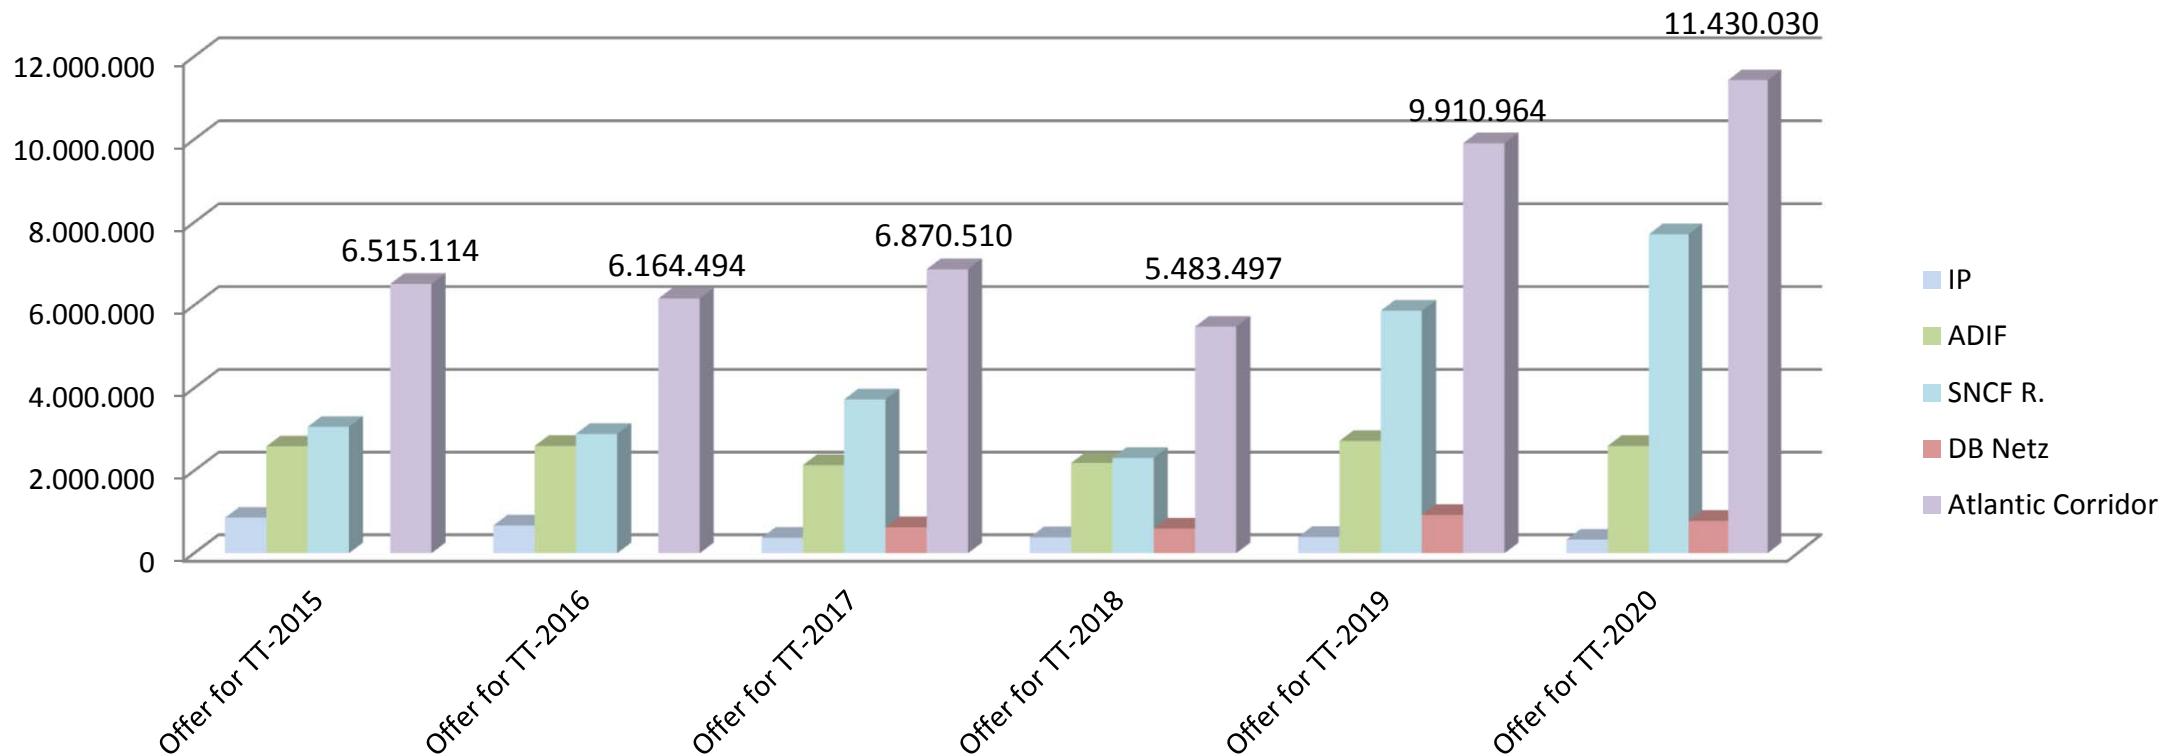

- I. WELCOME AND UPDATE/NEWS ON ATLANTIC CORRIDOR.
- II. RESERVE CAPACITY FOR 2019 AND THE OFFER OF PRE-ARRANGED PATHS 2020.
- III. KEY PERFORMANCE INDICATORS AND SATISFACTION SURVEY ON ATLANTIC CORRIDOR 2018**
- IV. SATISFACTION SURVEY ON ATLANTIC CORRIDOR 2018.
- V. COMMENTS ON ATLANTIC CORRIDOR INTERNATIONAL CONTINGENCY MANAGEMENT PLAN.
- VI. PRESENTATION OF TRAIN PERFORMANCE MANAGEMENT WORKING GROUP ACTIVITY, INCLUDING TIS AND OBI TOOLS.

2<sup>ND</sup> SESSION

- I. RAIL ACTIVITY AT BILBAO PORT.
- II. RAIL FREIGHT CORRIDOR OVERVIEW AND OSS GENERAL FUNCTIONALITY.
- III. JÚNDIZ TERMINAL NEW PROJECT AND UIC TRACK GAUGE FRAMEWORK.
- IV. VISIT TO BILBAO PORT.
- V. LUNCH.

Paths reserved		-7,0%	-23,8%	38,1%
Trains running		-29,4%	-25,8%	33,7%
Trains delayed > 30mn		32,0%	18,4%	-6,7%

- Important decrease of reserved capacity (**-7%**) and traffic running (**-30%**) at the FR/SP border.
- This decrease is probably linked to the decrease of oil baril giving a better competitiveness to the road traffic, the rail capacity restrictions linked to important works on progress on the French rail network et the major strikes of the 2<sup>nd</sup> trimester 2018 in France.
- The train punctuality >30' has been also affected at the FR/SP border (**+32%**)
- New rail market were developed between PT and SP producing an important traffic increase (**+34%**) and a better train punctuality >30' (**-7%**)
- More trains were crossing the SP/PT border than the FR/SP border in 2018 !!!**

16<sup>th</sup> TAG RAG meeting  
Bilbao, March 13<sup>th</sup> 2019

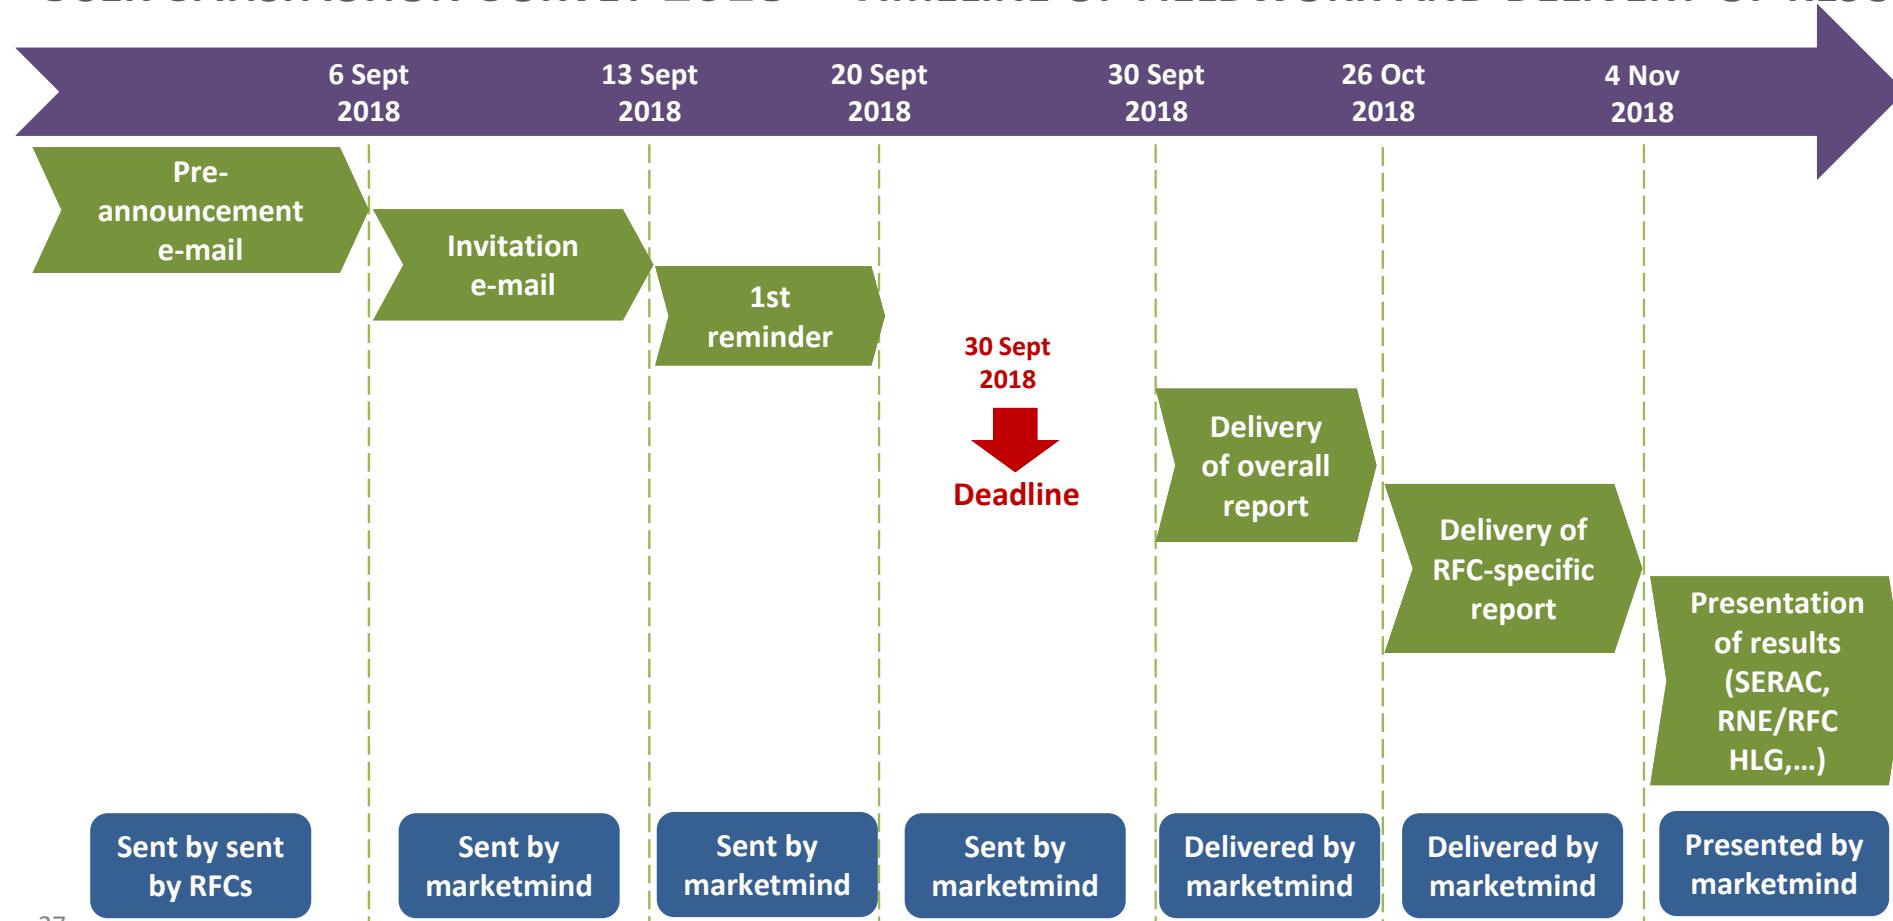

1<sup>ST</sup> SESSION

- I. WELCOME AND UPDATE/NEWS ON ATLANTIC CORRIDOR.
- II. RESERVE CAPACITY FOR 2019 AND THE OFFER OF PRE-ARRANGED PATHS 2020.

# USER SATISFACTION SURVEY 2018

## RESULTS PER CATEGORY

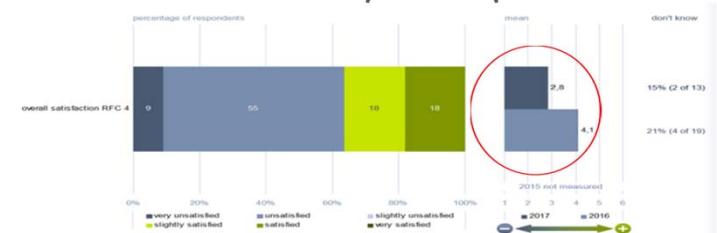

16<sup>th</sup> TAG RAG meeting  
Bilbao, March 13<sup>th</sup> 2019

- Questionnaire had been considerably shortened this year.
- Objective: increase participation. 
- Atlantic RFC result: **BIG DECREASE** 
- Main aspects that decrease compared to last year 
- Ideas for the future
  - Need for change of focus topics? Split RUs and Terminal results ?
  - What if we invite the most operational personnel, and not high-level personnel in each company?

## SATISFACTION SURVEY 2018 RESULTS ANALYSIS & LESSONS LEARNED

There hasn't been an increase in the number of participants.

- Infraestructure
- Path allocation
- PCS Overall
- Traffic Management
- RFC Gobernance

Infraestruturas  
de Portugal

## INTERNATIONAL CONTINGENCY MANAGEMENT PLAN (1/3)

### ONE YEAR AGO : RASTATT INCIDENT ON RFC1 WITH FULL CLOSURE DURING 2 MONTHS

After this incident, action plan was pushed by all European rail actors in order to implement quickly an harmonized International Contingency Management plan at each RFC level.

## INTERNATIONAL CONTINGENCY MANAGEMENT PLAN (2/3)

- Handbook approved by the prime & RU dialogue members (16th.03.2018), and by the GA of RNE (16th.05.2018) & FTE.
- Framework of the RFC Atlantic ICM approved by the General Assembly of RFC Atlantic held on the 11th.06.2018.
- Workshop between IMs held in Madrid & Paris in 2018 Q4, draft document on progress at the Atlantic Corridor level.
- RU consultation expected in April 2019 in order to give a feedback to the Executive Board members on the 23<sup>rd</sup>.05.19 in Berlin.
- Approval of the final version of ICM Atlantic by the GA of the Atlantic Corridor expected on the 3<sup>rd</sup>.06.2019.

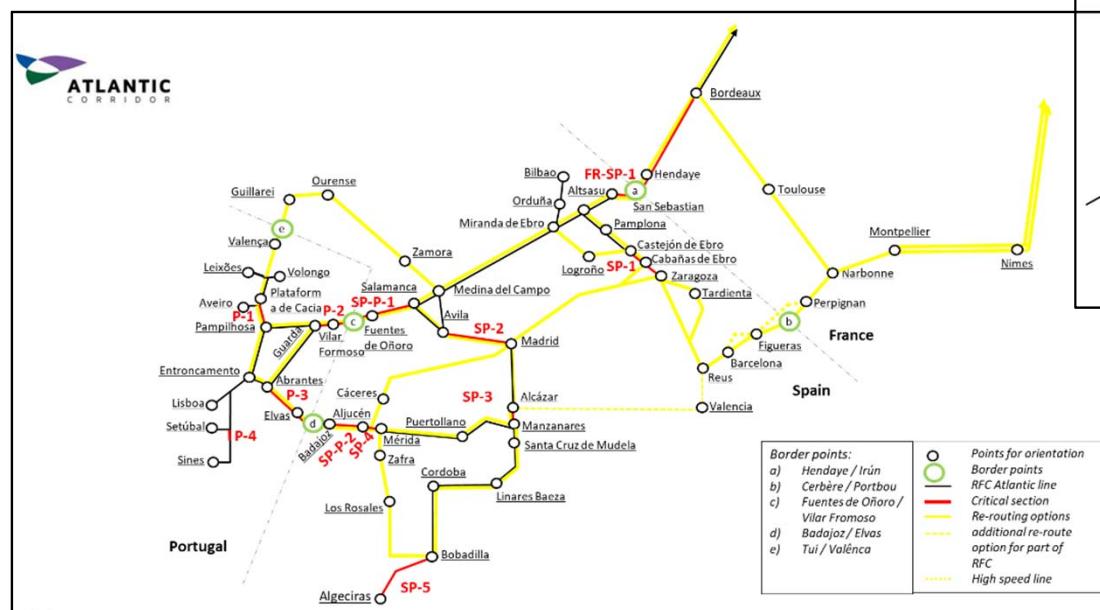

P o r t u g a l . E s p a ñ a . F r a n c e . D e u t s c h l a n d

16<sup>th</sup> TAG RAG meeting  
Bilbao, March 13<sup>th</sup> 2019

# INTERNATIONAL CONTINGENCY MANAGEMENT PLAN (3/3)

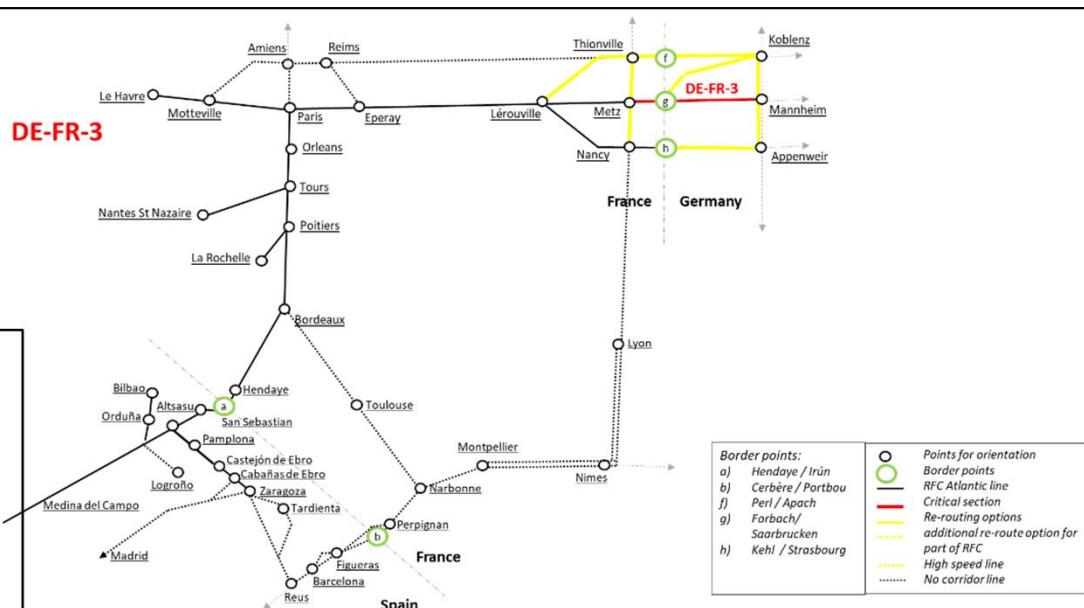

As many options are available for crossing France, no detailed information about national section will be provided in the ICM.

*Southern part of the Corridor*

34

Portugal . España . France . Deutschland

*Northern part of the Corridor*

For each rerouting itinerary, infrastructure characteristics are described including expected parking locations.

1ST SESSION

- I. WELCOME AND UPDATE/NEWS ON ATLANTIC CORRIDOR.
- II. RESERVE CAPACITY FOR 2019 AND THE OFFER OF PRE-ARRANGED PATHS 2020.
- III. KEY PERFORMANCE INDICATORS 2018.
- IV. SATISFACTION SURVEY ON ATLANTIC CORRIDOR 2018.
- V. COMMENTS ON ATLANTIC CORRIDOR INTERNATIONAL CONTINGENCY MANAGEMENT PLAN.
- VI. PRESENTATION OF TRAIN PERFORMANCE MANAGEMENT WORKING GROUP ACTIVITY, INCLUDING TIS AND OBI TOOLS**

2<sup>ND</sup> SESSION

- I. RAIL ACTIVITY AT BILBAO PORT.
- II. RAIL FREIGHT CORRIDOR OVERVIEW AND OSS GENERAL FUNCTIONALITY.
- III. JÚNDIZ TERMINAL NEW PROJECT AND UIC TRACK GAUGE FRAMEWORK.
- IV. VISIT TO BILBAO PORT.
- V. LUNCH.

## TPM Results

- This year the group has reached its goal of having the action list as the main document to have a follow up on actions.
- DB Netz and SNCF have started telcos with ECR, SNCF Fret and DB Cargo.
- The telco with ECR and DB Cargo should be continued because there is a lack of cooperation between them and the corridor can make pressure for them to get more punctual.
- IP has contacted Takargo and Medway and is continually in contact with ADIF to discuss the problems at the border.

### 3- GOALS AND ACTIONS FOR THE YEAR 2018

Ongoing Actions:	Goals* will be reviewed February 2018 with all IM:
<p><b>Ongoing Actions:</b></p> <ol style="list-style-type: none"> <li>1. TO MAKE THE ACTION LIST THE MAIN LIVING DOCUMENT FOR THE TPM GROUP</li> <li>2. EACH IM TO ANALYSE 1-5 TRAINS PER QUARTER</li> <li>3. HAVE A CONTINUOUS EXCHANGE WITH THE RU OF THE CORRIDOR</li> </ol>	<p><b>Goals* will be reviewed February 2018 with all IM:</b></p> <ol style="list-style-type: none"> <li>1. BY MEANS OF THE ACTION LIST EACH IM SHALL DEEPLY ANALYSE 3 TO 10 REPEATEDLY DELAYED TRAINS.</li> <li>2. EACH IM SHALL IMPLEMENT AT LEAST ONE MEASURE IN ITS COUNTRY TOGETHER WITH THE CONCERNED RU.</li> </ol>

**Interlocutor único** para tratar las peticiones de surcos internacionales del corredor.

**C-OSS**

**Garantía de los surcos asignados por la ventanilla única** en la totalidad de los países del corredor.

**Oferta de surcos coordinada entre países** teniendo en cuenta el tráfico de viajeros, el mantenimiento y las obras programadas en el corredor.

**Utilización del sistema informático de gestión de Capacidad (PCS)** común a todos los corredores europeos de mercancías

**Coordinación con el resto de OSS de los Corredores** para la construcción y asignación de las capacidades.

Infraestruturas  
de Portugal

1<sup>ST</sup> SESSION

- I. WELCOME AND UPDATE/NEWS ON ATLANTIC CORRIDOR.
- II. RESERVE CAPACITY FOR 2019 AND THE OFFER OF PRE-ARRANGED PATHS 2020.
- III. KEY PERFORMANCE INDICATORS 2018.
- IV. SATISFACTION SURVEY ON ATLANTIC CORRIDOR 2018.
- V. COMMENTS ON ATLANTIC CORRIDOR INTERNATIONAL CONTINGENCY MANAGEMENT PLAN.
- VI. PRESENTATION OF TRAIN PERFORMANCE MANAGEMENT WORKING GROUP ACTIVITY, INCLUDING TIS AND OBI TOOLS.

2<sup>ND</sup> SESSION

- I. RAIL ACTIVITY AT BILBAO PORT.
- II. RAIL FREIGHT CORRIDOR OVERVIEW AND OSS GENERAL FUNCTIONALITY.
- III. JUNDIZ TERMINAL NEW PROJECT AND UIC TRACK GAUGE FRAMEWORK
- IV. VISIT TO BILBAO PORT.
- V. LUNCH.

SYSTEMS	TECHNIQUES THAT REQUIRE SPECIFIC ROLLING STOCK + WORKSHOP			TECHNIQUES THAT REQUIRE SPECIFIC TRACK LAYOUT	
	Axes Interchange	Automatic Shift for Variable Gauge Axles - PASSENGERS	Automatic Shift for Variable Gauge Axles - FREIGHTS	3 Rails Track	Polyvalent Sleeper
Picture	A photograph showing workers in a workshop performing axle interchange on a train.	A photograph of a high-speed train at a station.	ON TRIALS FOR VALIDATION	A photograph of a railway track with three rails.	A diagram illustrating the polyvalent sleeper system with multiple holes for different rail gauges.
Installations	Large workshops in spanish-french borders at Hendaye and Cerbere. Installations franchised by Transfesa (shareholded by DB and Renfe)	Small workshops located at link points between Iberian and UIC gauge (not only borders Spain-France but as well connections between High Speed and Conventional lines within spanish network)		Based on a sleeper designed to put together an ADDITIONAL third rail. To install third rail on an existing track, sleepers must be changed and some specific adjustments are needed for traffic control and signalling systems. Due that longitudinal train axle shifts few cm. when running on each gauge, energy supply over-wire needs some offsets. As well for this reason, room gauge standards compliance has to be checked, mainly on tunnels, steel bridges and platforms	Based on specific sleeper design, which includes several holes in order to let the ALTERNATIVE to fix the two rails as Iberian or as UIC gauge (not both simultaneously).
Operations	The trains has to be stabled over a long pit, where axles are released from the wagon. Then the wagon is lifted and "new gauge" axles come to be assembled to the wagon. 1 hour to change a whole train	The trains pass through a mechanical device installed on track bottom, which shifts automatically the Variable Gauge Axles to the "new" gauge. No train stop is required, gauge change is made in real time meanwhile train runs at low speed		A line can be operated free on Iberian or UIC gauge if 3 Rails Track is laid out	Line can only be operated on one of the gauges. If an Iberian line built once with polyvalent sleeper is planned change to UIC gauge, then track-works deal with shifting rails from their position to the new one. There is almost no more impact on rail systems. In any case to reach a proper line operation, track gauge change must be accompanied by a plan to count as well with new gauge rolling stock.
Rolling Stock	Currently used for Freight Wagons with specific interchangeable axles	Currently valid only for passengers rolling stock designed by Talgo or CAF. A Variable Gauge Axle Iberian/UIC for Freights is being tested in Spain (developments in Germany and Poland too)		Valid for all kinds of typical passenger and freight rolling stock	Valid for all kinds of typical passenger and freight rolling stock
Historic references	Deployed since 1950	Deployed since 1969		Old deployment for ports, yards and freight dedicated lines in some countries. New scenario to reach typical passengers speeds has been developed in Spain since 2001, based on a test section. First commercial section opened in 2003. Then for recent 3 Rails Track projects new switches were developed to increase gently the maximum speed pass by straight and deviate way. ERTMS for both gauges has been tested although not deployed by the moment	This system was conceived for lines that need to be renewed and because of their location in the spanish network could be subject to eventual gauge change in the future.
