1. This PaP catalogue might be subject to modifications due to unforeseen infrastructure works.

2. In case of discrepancies of information displayed in this PaP catalogue and PCS, please consider the offer in PCS

3. PaPs are published in PCS at X-11. Between X-11 and X-10,5 the COSS is allowed to perform in PCS all needed corrections of errors regarding the published PaPs detected by any of the involved parties. In this phase, the published PaPs have "read only" status for applicants, who may also provide input to the COSS regarding the correction of errors.

4. Logistic Services to be provided by the Freight Terminals shall be agreed between the applicant and the terminal. For Irún and Hendaye, the foreseen load transfer location should be taken as a reference, it depends on the logistic planned by the applicant.
